**Kevin Harvick Gambles, Wins NASCAR® Coca-Cola 600,
Crew Chief Gil Martin Named MOOG® ‘Problem Solver of the Race’**

Southfield, Michigan, June 1, 2011....Kevin Harvick and crew chief Gil Martin rolled the dice in the closing laps of Sunday’s Coca-Cola 600 and the gamble paid off for both parties as Harvick took the checkered flag at Charlotte (N.C.) Motor Speedway and Martin picked up his third MOOG® Chassis Parts “Problem Solver of the Race” Award.

Presented by global automotive supplier Federal-Mogul Corporation (NASDAQ: FDML), the MOOG Problem Solver award is presented to the crew chief whose car posts the greatest improvement in average lap speed from the first half to the second half of each Sprint Cup event. Harvick’s #29 Budweiser Armed Forces Tribute Chevrolet delivered a race-best 0.442-second-per-lap change while gradually moving into position for an “overtime” win at Charlotte.

Harvick, who started in 28th position, asked for Martin’s help early and often in adjusting the #29 car’s MOOG-equipped steering and suspension system. After a series of modifications, Harvick had the handling precision he needed to make a run toward the front. He had advanced to fourth by Lap 310 but didn’t appear to have a chance at victory until fuel strategy came into play when the race was extended by two laps due to a late caution. The #29 car had just enough fuel to make it to the finish, while race leader Dale Earnhardt Jr. ran dry half a lap short, giving Harvick his third victory of the season.

“Great teams never give up, and Kevin and Gil just kept battling all night long,” said Federal-Mogul Motorsports Director Tim Nelson. “Their car wasn’t quite right in the first half of the

race, but Gil and the Richard Childress Racing team corrected those early issues and then made some great calls at the end to help earn the win.”

As the automotive service industry’s “Problem Solver,” MOOG steering and suspension components are the leading choice of crew chiefs and automotive repair professionals. MOOG parts have helped drive an unprecedented 45 consecutive NASCAR Cup champions to victory.

For additional information regarding MOOG chassis parts, please visit the brand’s technician-focused www.moogproblemsolver.com website or contact your MOOG supplier. To identify the right MOOG part for virtually any application, please use the convenient, free www.FMe-cat.com electronic catalog.
